GANDHI'S FULL SUPPORT FOR SWARAJ

Mahatma States His Policy.

CIVIL DISOBEDIENCE TO BE **ARANDONED**

Patna, Yesterday. Mahatma Gandhi urged the abandonment of Civil Disobedience in the course of a statement to the Press, to-

must advise all Congressmen to suspend civil resistance for the Swaraj as distinguished from specific grievances," he said.

He added that he had decided to be, himself, the sole civil resister.

Gandhi's announcement, in conjunction with his approval of the decision of the congress leaders to contest the forthcoming elections for the Legislative Assembly, and to revive the Swaraj Party for this reason, is interpreted that Gandhi is abandoning his policy of non-co-operation and devoting all his energies to the attainment of the Swaraj.—Reuter.

YARDLEY FRACEANCE POWDER

The one perfect powder for a flawless English skin.

Clear and cool and gardenia-smooth, the Englishwoman's complexion is like some pink-and-ivory-petaled flower, exquisite and rare. And she cares for it as she would her most precious possessions. She will use only the finest preparations that the world affords.

That is why Yardley made Fragrance Powder.

It will give you more, than you had ever hoped for from a powder. It is so light, it will cling for hours; so luxuriously fine, like delicate, tinted mist; so subtly shaded that only the touch of your fingers and the richer, softer finish of your skin will reveal that you have used a powder at all. Truly a miracle!

PY virtue of a better goal av erage than St. Joseph's, who are meeting the East Lancs to day, the Borderers are leading the premier soccer league cham pionship table as, the result of their win over the Artillery yes erday.

The Lincolns made an eleventh hour recovery, during which period they scored twice, to snatch a point from the Navy, but their chances of winning the title were dashed last week when they lost to the Saints.

South China, the champions, retained their position as the result of an unconvincing win over the Police, and the Club ran riot at the expense of Kowloon after a goalless first-half.

Donald's Centres Unavailing

Donald was early conspicuous for Hong Kong, opening up the attack with several fine movements Golf.on the right wing and flashing across well-timed centres. These promising movements proved of no avail, however, the smart intercepting by the Malayan full-backs robbing the Colony sharpshooters Yachtingof all opportunities for scoring. Rahman gave a magnificent exhibition of first-time clearances, displaying amazing accuracy.

Osman then set the Malayan forwards in motion, but Wong relieved a tense situation with a well-timed kick.

Malaya continued to press, and Perdiau repeatedly fed Baharom Meetings:with perfect passes, and it was from one of these passes, that BAHAROM opened the scoring with a snap goal.

Lowe Saves Situation C. O. La Brooy then checked a strong attack by Hong Kong, and in reply sent his forwards away, but Lowe saved the situation by conceding a fruitless corner.

Perdinu was a distinct menace in the Malayan attack, sending across some fine reversed stick centres, but Hong Kong looked dangerous when Lal Singh provided an opening, only for Enden to sky the ball well over the goal-

Hong Kong now began to settle down and maintained a determined attack, but the Malayan defence True Blue 16.28.48 was very safe, and the Colony defence was soon called on to relieve Guil dangerous situations...

Perdiau broke through from a neat pass from Osman, and in a Artemis 16.31.01 solo effort in which his spectacular one-handed stick play was Jan brought into evidence, centred pat

on the ball, but Wong intercepted during an anxious. melee in front of the Colony goalmouth.

Garthwaite Spoils Chance

Hong Kong then rushed away Carpenter 16.38.11 to the other end, but the attack was frustrated when Garthwaite Oslo was offside to a good centre from Donald.

The British Government, Sir John Allen said, is now even lending money abroad, whereas two years ago, in face of a budget deficit of £175,000,000, foreign holders of shortterm money in London were withdrawing their holdings in alarm. Mr. Hawtrey, in his recent book, "Trade Depression and the Way Out," traces the story of how, affter suspension of the gold standard, a sagacious banking policy prepared the way for the great British conversion loan. The era of cheap money brought about by the reduction of interest rates has worked a vast improvement in all investment conditions. Besides the great conversions of Government indebtedness. British and Dominion, there has in the past year been extensive operation in company conversions. During 1933 there were 42 of these, and in all some £63,250,000 of company debentures were converted to a basis of about 4 per cent. The confidence in vesterday morning, said: the re-established financial structure is spreading into a new confidence in industrial enterprise. That commercial industry is responding to the opportunity of cheap money for investment is clearly established. It is this readiness to invest, the proof of confidence in the individual citizen, which illustrates best the lifting of Britain out of the depression. At a meeting, of the London Regional Conference of the National Savings Movement recently, Mr. Runcilnan showed in a long list of figures from savings banks, insurance companies, and building societies, that £2,833,000,000 of home British investments are held by 14,000,-000 to 15,000,000 of British citizens, an enormous spread of capital ownership through the adult population. The Bankers' Magazine reveals that, in its selected group of 365 stocks, having a total Inominal capital par value of £6.683 millions, the appreciation up to November was no less than £500,000,000. The railway companies for the first time for many a day are recording encouraging improvement in revenues. The extension beyond the summer of reduced fares brought in between August and November a comparative increase of £550,000 in passenger receipts, and, what is given more heartening, is the rise in merchandise freights. The imme-

diate result is the seeking of further capital for an extension in the

electrification of main lines. Railway stocks alone appreciated dur-
